Dear Mr. Braxton:

This is to inform you that the first phase of reclamation at our Carr Fork property is completed. All earthwork and reseeding has been accomplished according to the plans approved by the Division. We will now wait until the weather and soil conditions are favorable for planting shrubs next spring. The second phase of work should begin in the Spring of 1987.

Lowell, we greatly appreciate the cooperation we have received from you and your staff in regard to the reclamation work completed to date. The staff members who have participated in the reclamation construction inspections have been flexible and helpful in resolving design changes with our Contractor without causing schedule slippage and excessive costs. This constructive input was much appreciated.

Sincerely,

Robert L. Dent  
Manager
